

LKG FRUIT PARTY

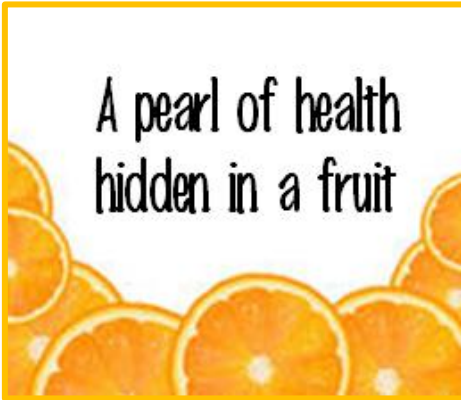

Fruits Party was celebrated on 2nd June 2016 with great excitement at Kindergarten Afternoon to foster healthy habit of eating fruits in children. Helping them understand the delicious and nutritious fruits play an essential part in our daily diet. Keeping us fit and fine. On this special day children brought their favourite fruit to class to share with friends.

To enhance knowledge the variety of fruits were arranged in the seminar hall of KG and students toured the exhibits marvelling at the display and excitedly sharing eating experiences

Children dressed in fruit costume eagerly awaited their fellow students and boastfully shared their features from colour to size and taste to texture. The children were a pleasure witness as they demonstrated their newly born oratory skill.

Stationed at the head of the exhibit fruits, the costumers were the cynosure of all attending. Appropriately attired in their costumes the inviting health icons radiated delight to the event. Children also tried to burst the balloon grapes in sheer curiosity.

Fascinated by their fellow mates dressed as their favourite fruits The children stopped to make conversation and share the excitement.

Each class was allotted a fruit and students prepared accordingly

Eat right
be bright

After exploring the world of fruits students returned to their respective classrooms to savor the delicious fruits and party with classmates. The day was well spent as the exuberant children did benefit from the objective of endeavour.
