

School is Cool!

The new session 2016 – 17 of KG Afternoon began with the arrival of eager mothers and enthusiastic kids ready to meet their teachers on the evening of Sun.3rd April 2016

The mothers were invited to foster a strong rapport between the mother and teachers.

A positive parent – teacher relationship helps the child feel good and be successful in school. It makes a child feel like the important people in her/his life are working together.

The objective was to discuss strategies of nurturing and develop the physical, social, emotional and cognitive growth in the child through a variety of activities.

ac-

The opportunity was availed to collect Text note and workbooks to ease the child of heavy school bags ensuring a pleasant school coming. Parents were also instructed to provide light healthy food items as snacks discouraging junk and oversized food packs

The teachers emphasized on

- Language development – promoting an appreciation for diversity
- Encouraging a positive self – concept.
- Fostering positive interaction with classmates and teachers.
- Developing quality work habits and school routines
- Incorporating active learning.

The mothers left the school satisfied with their concerns determined to work hand in hand with the teacher for the betterment of the child. The evening was a great success as almost all the parents attended.
