

# **MULTIPLICATION TABLES**

## **COMPETITION ( 2016-2017 )**

Learning and memorizing multiplication tables is an essential part of student elementary education. Students who have mastered in multiplication gain a solid foundation in mathematics that will help them throughout middle school, high school and beyond. It is a building block for mathematics. It boosts the morale and confidence of children.

To inculcate importance of multiplication tables in the students, III-V Boys' Section conducted multiplication tables competition on 1st of May 2016 .The first and second rounds were conducted in the classroom which gave an opportunity to each student to come forth & prove his ability. Finally two students were selected from each section. Making a total of 24 from each section. These 24 finalists of each class were divided in to 4 teams comprising of 6 participants. The competition for classes 3, 4 & 5 was conducted separately. The three rounds of the competition were Individual, Lets' Search and Activity Round. The thrilling & enthusiastic competition witnessed an overwhelming response by the participants.

The elated winners were honoured with medals and certificates by the Headmistress of the block Mrs. Raffat Sayeed on 30th of May, 2016.
