

World Environment Day

III-V (G.S.)

Environment has become the most discussed issue, the world over. The apocalypse that stares us, in the not so distant future, is real and cannot be ignored anymore. The world that we inherited is being senselessly vandalized by a few vested interests and being pushed to the brink, unless a concerted effort is made to reverse this diabolical path, it is hurting in. World Environment Day is celebrated every year on 5th June to raise Global awareness towards protecting and conserving our environment.

III-V Girls Section celebrated this day by having a special assembly to bring about environmental awareness amongst children. The programme commenced with the recitation of Holy Qur'an and a Hadith giving the message- Trees are never demanding, they help you save a lot of money.

The E.V.S teachers Mrs. Tanweer Fatima and Mrs. Shanthi Subramaniyam trained the students for this Assembly. The girls recited songs in English and Hindi. Gave speeches in English and Hindi as well, representing the theme, "Save the Earth-Mother Nature" and "Paryavaran Bachao" praising Mother the nature as the provider and sustainer.

The ground was well decorated by colourful pictures. A special message, 'How to save the Environment' was conveyed through placards.

The programme ended with the pledge and a quote ... "You can change Environment BUT ...Until you change yourself, nothing else Will ever change."

Better Environment, Better Tomorrow.
